GOLD SECTOR UFO

It has been a very long time since we have put out any sort of newsletter or sheet, but we have not been inactive. It is just that a number of things occurred making it impossible to type and send out the information received.

We feel it is a vital time to be seeking public involvement and sharing the incidents we hear of with that public. Our policy, as in the past, is to take ALL reports, no matter how insignificant or ridiculous they may sound, nor how impossible they appear. It is from large amounts of what many times is considered worthless reports that repeating patterns are culled and a direction is given. It is the pattern that will eventually reveal the reason which we all seek in UFO investigation.

.....

REPORTS

June 6-7, Barberton, 1:30 AM ..Waterloos and Main...a Barberton photographer observed just above the expressway, skimming at treetop level a conventional silver, disk shaped craft, with antenna...two of them. projecting from fore and aft. No observable noise. This individual called his father who lived but blocks from the sighting, and while describing the object to him, the father could NOT see it, altho it was quite large and should have been observable!! However, we know it was there, because we had approximately six other substantiating reports that SOMETHING was present and airborne at that time.

.....

June 17...State Rd...Cuyahoga Falls...11:30 P M....Marty Papp and Dr Robert Lance, on their way home from Ascot Theatre on State Rd, noted a very large, brilliant source of light, just above tree-top, travelling 'extremely fast' from west to east, zip overhead. As it moved eastward, it banked, and at that moment, they saw what seemed to be port-holes along its side. No noise was noted, and it was travelling far too fast to be a blimp.

.....

June 20...State Rd...and Bath-Graham area...10:45 ..carload of youngsters returning to Northampton observed very bright source of light travelling west to east, very low, no noise, moving very fast. As it crossed above the car, they could see it was disk shaped, but still a light source, altho beneath it red, blue and green lights revolved in a circular motion rapidly. Compared the size to that of a small wash-basin.

.....

June 23...Canal Fulton...#21...1:30 AM...very large, estimated about fifty feet in diameter, object sighted skimming close to ground, thought not to be more than fifty to seventy-five feet off ground level. Man and wife noted object as they moved south along #21. What appeared to be windows were seen, altho no inhabitants could be detected. No sound emitted. Craft hovered for a time, as if debating just what to do about car occupants. (This was their feeling) then it shot heavenward to become a pinpoint of light in what seemed mere moments. Both husband and wife were aware of a heavy scent of some kind of flowers, altho they could not identify it with anything they now know of. Their heads were light and they felt as if the capacity of their skull was increased. The husband reported an intensification in his vision...he

#2

said everything looked extremely clear and sharp...more than he ever remembered at any previous time.

.....
June 26...Penninsula Valley...1 AMbright white light, coming out of valley, between 39 and Steeles Crs, west to east, blue beam shot out of it, to ground, white beam going from object up...skyward.No noise discernible.

.....
July 1st...12:30 AM...Ellet-Mogadore ...along #532 just outside of the circle.Large 'something' sighted, double layer. A large dark oblong section, with a lighted area above it, topped by a smaller dark oblong portion, and this topped with light. No noticeable noise.Watched it till got home, was finally unable to see it any longer thru her window.Reported by Georgiana Walters, Ewert Rd, Ellet.

.....
Same night, Northampton area....about the same period...at our regular Friday night meditation, we observed a number of down low brilliant white 'fireballs'...meterors...whatever...plus a bright yellow and deep reddish orange one. To contactees, the 'fireball' type of phenomena indicates the PRESENCE of UFO in the area..they are compared to 'signal lights'

.....
July 11...10:30 PM...Richfield-Penninsula....two young men driving home from work observed travelling along Riverview Rd, skimming just above tree top level a large circular object, several windows evident light coming from within, what appeared to be human figures moving within the interior, and a large boom shaped arm with basket like appendage swooping thru the upper parts of trees. No noise, but the basket made a swishing sound as it whipped over the wooded area. No observable odors were noticeable, altho both men commented they felt light headed and prickly all over. One of them indicated he was itchy over every conceivable part of his body.This is not the first time this particular observation has been made.

.....
July 12-77...Garfield Hts...3:45 AM....Joyce Billings reported that at 3:45 AM she had gotten up, observed a large bright light shoo up from the southern horizon, then hang motionless in mid-air, so she used a pair of binoculars available and noted thru the glasses that the light seemed to have a pyramid shape...or like two pyramids put together to form a diamone, then it would change and become a flat saucer type, and from that to a bright light source with blue, and red coming in streams from the right side. Source of light remained for some minutes at that level, then shot up past the telephone lines, very fast, to remain stationary again. It was still stationary when she finally went to bed. However, she said after watching the light, she saw in her head a spiral shaped image, but it was oblong in shape and broeken, red and black in color.In mysticism the color combination is indicative of very great power...interesting, isn't it ? A spiral even the angled sort of thing she reports, indicates a vortex of energy So.....something to remember and record for future developments.

.....
July 12....1:30 AM...Northampton...Billy Kennedy reported that about 1:30 the lights in the house went out temporarily, and the electrical equipment stopped briefly, while outside a large source of light was observed.He was frightened.

.....
July 9....skywatch...548 W Steeles Crs Rd

altho we had a relatively few present, it was a rather fruitful night. Several unexplainable light source observed, one in particular appearing as a double light, no noise...but which of course COULD have been an airplane. However, we also noted no less than five down low, tree-top level fire balls, ranging from yellow gold to orange red to white to blue green. In one hour, no less than twenty 'shooting stars' ??? followed by a brilliant intermittent blinking light source that travelled very swiftly across the sky in southerly direction....

SKYWATCH EVERY SECOND SATURDAY TILL TOO COLD TO WATCH. BEGINS AT 10:00 PM AND CONTINUES AS LONG AS YOU WISH TO WATCH. IF YOU COME, BRING HOT DOGS OR SOMETHING TO EAT, CHAIRS, BEDROLLS IF STAYING THE NIGHT, AND WARM CLOTHING. WE HAVE A BONFIRE ALL NIGHT, AND TALK, SING WHATEVER HAPPENS TO BE THE FEELING FOR THE NIGHT. SOMETIMES WE SEE SPECTACULAR THINGS..SOMETIMES THE NIGHT IS JUST A NICE EVENING...BUT COME...AND ENJOY ONE ANOTHERS COMPANY.....

.....

July 12...11:30 -12 AM...Penninsula Valley ...Marty Papp of Cuy Falls and a party of individuals observed very large bright light over the Valley. Mrs Papp drove to the valley, hoping to be able to more clearly qualify her observation, and says it was just above tree-top level no noise, (car motor and radio turned off)...appeared to be heading toward Ledgeswood area and they thought it might possibly have landed. There were two very large white lights on what might be the front and back points of a diamond shaped object, with two extremely huge bright red ones on the opposite points. At no time did they note any sound whatsoever, altho it passed directly overhead.

July 17...9:50 PM...Quick Rd...Northampton-Penninsula area ..Phillip Falstick, Tony Stahl, Susan, Sheryl and Roy Teagle were travelling down Quick Rd past Woodridge Highschool when they noted a large lighted object in the sky. To each one it appeared somewhat different...but yet the descriptions are similar. Sheryl observed a cigar shape, Susan saw only two bright white lights, the younger two, Tony Stahl and Roy Teagle just saw 'something' ..which they said did not seem to be a plane. Phillip Falstick however, saw what would appear not to be a plane but took on a diamond shape at some angles, and at others a rather commonly shaped bowl. He noted two lights at the top, two on either point or edge, and one on the bottom, with others seemingly in the center. Again, no noise at all.

.....

July 16...Hale Farm area...12:30 to 1 AM ...Madonna Estafen and Billie Kennedy observed a very large object which their thumb could not cover and which they compared to the size of a car in the air, altho they both said it was quite high. It appeared to be clear, yet solid, sort of like it was composed of a clear plastic or crystal, with lights all over it. They said it had what seemed to be a myriad of blinking lights everywhere around it (or it might possibly have been as others have reported..a kaleidoscope effect..a shimmer of many colors seeming coming at once from the shape)..They felt a link with the object...or the occupants in it and a feeling that it might intend to land somewhere in the locale.

.....

Some interesting things have been developing in the section just below Kent around Brimfield, and parts of Mogadore and Tallmadge and Stow. They are reminiscent of years ago when the UFO activity in that section

#4

was tremendous. They also seem to point to possible underground bases in that location...and a step up of communicative action. We are NOT saying rush right out there and find that base..because that might be detrimental to your bod. It seems when whatever it is that is there WANTS you to enter their zones of action, they allow you, when they do not, the results can be very definitely not to your greatest good. What we ARE saying, is...be alert, aware and REPORT anything out of the usual in swamp areas, around or in Mogodore Dam, anything coming from the ground, any shaking or trembling of the land...and emphatically, any out of the ordinary action from your animals. We ARE saying watch your TV screens for unusual screen patterns, or sounds, particularly for sequential repeating patterns of sounds or screen designs and note the TIME it occurs, and the FREQUENCY with which it happens.

PAY ATTENTION to your phone rings...and if you get an unusually large number of silent phone calls, record the number and times. If this happens with increasing frequency, simply say something like... 'IF YOU WISH TO SPEAK FO ME..PLEASE DO SO..BUT IN MY EARTH LANGUAGE BECAUSE I DO NOT UNDERSTAND YOURS'...and see what happens. If you should chance to have one of those recording devices to put on your phone, and hooked up to a tape recorder, by all means record anything that is on the phone, and hope it IS recorded.

And PLEASE, call us first. THEN call your local police..and again... PLEASE do not let yourself be intimidated. If you wish to communicate your experience we will listen and keep it confidential. It is IMPORTANT tht you do not allow seeming governing units to bring you to a state of fearful silence.

And above all...do not be afraid. In all the years we have been doing this type of investigating, we have never encountered anything that truly meant to harm us. We have had encounters that ~~SHOCK~~ us, but only because they were unusual and we were not prepared for that type of experience.

We do not mean to sound religious, but it is a reality, that if you stand firm within your own KNOWING of your place in the Divine Scheme of things, there is nothing to fear..only the experience to be added to your store of growth.

FOR YOUR ASSISTANCE, BELO IS A PARTIAL INDICATOR OF WHAT TO LOOK FOR AND WHAT THEY MAY INDICATE.

SCOUT...white , fast

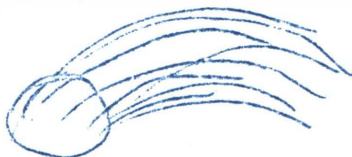

SCANNER...gold to orange

MASTER CRAFT

SCANNER...deep orange, barely moving, NO tail, GOLDEN LIGHT

SIGNAL CRAFT

#5

SCANNERS look like fire-balls or bright stars depending upon their height and speed. Fast they are golden...slower more to the orange... and always a spray tail if moving at any speed at all. The faster the thinner the tail...slower the broader and deeper the color. Often the image of the tail lingers after the light of the SCANNER is gone.

SCOUTS are usually fast and WHITE if travelling fast. The tail is straight like a pencil streak and white. Often mistaken for falling stars..but they do not arc in the same fashion.They appear to arc if they make an arc in direction. Sometimes so fast they are caught almost on a BLINK. Other times, they will streak clear across the heavens.

When going slow, scouts can leave a dim image which allows for greater observation of the body of the craft.

MASTER CRAFT appear about the same as SCOUTS but they often have a double tail image, a double con trail or even a double LIGHT source.

Craft can electrify and cause what appears as sky flashes..similar to flash bulb explosions.

WATCH.....NOTE....AND REPORT !!!!!!!

As it is going to be difficult to publish this newsletter regularly without support for at least the postage and paper, we would be delighted to receive a donation from those of you who have little..for others who would be so inclined, a subscription would be welcome.

We could use observers and reporters in many areas, but if you wish to do this, contact us, because we have our method of investigation and we would want you briefed on it.
